# NO VICTORY IN VIOLENCE

Combatants for Peace (CFP) was formed in 2005 by Palestinians who had been part of the violent struggle against the occupation and Israelis who had fought in the Israeli army. Having put down their arms, CFP members are now engaged in a non-violent joint struggle to end the Israeli occupation and create a viable peace in the region. They are committed to using dialogue and a variety of reconciliation methods, including forum theatre, to create a growing grass roots movement of individuals who are aware of and willing to actively engage with the 'other'.

design by strawberry-design.co.uk

The evening will include some forum theatre, a discussion exploring the Israeli/Palestinian conflict with all its complexities and an opportunity to hear individual stories of transformation from violence to non-violence.

**Encounters** work in association with Amnesty International to create annual dialogue and reconciliation opportunities for members of CFP to be able to meet free of the constraints of the occupation and the conflict and share their inspiring work with UK audiences.

No Victory in Violence forms part of a series of events hosted by **Encounters** in South Devon and London 3-10 September 2011.
